Mail Stop Petition  
Commissioner for Patents  
P.O. Box 1450  
Alexandria, VA 22313-1450

Sir:

Applicants respectfully request reconsideration of the patent term adjustment indicated on United States Patent No. 6,897,305 B2, issued on May 24, 2005, pursuant to 35 U.S.C. §154(b) and 37 C.F.R. §1.702. This paper is being filed on or before July 24, 2005, i.e., within two months of the date the above-identified patent issued, and is therefore considered timely filed.

1. Statement of Facts

Pursuant to 37 C.F.R. §1.702(a)(4), Applicants respectfully submit the following statement of the facts involved:

A. 37 C.F.R. § 1.705(b)(2)(i) and (ii)

The patent term adjustment shown on U.S. Patent No. 6,897,305 B2 is 109 days.

Applicants respectfully submit that the correct patent term adjustment is 159 days. Specifically, when calculating the patent term adjustment for this patent, the USPTO erroneously included 50 days of Applicant delay because Applicants filed corrected drawings after a Notice of Allowance was mailed for this application. However, under the specific circumstances of this case, Applicants believe the filing of the corrected drawings did not constitute a failure to engage in reasonable efforts to conclude prosecution of the application. Accordingly, Applicants request that the 50 day reduction of patent term associated with Applicants' filing of the corrected drawings be removed. The basis on which Applicants seek adjustment is as follows.

(a) Period of Adjustment Pursuant to 37 C.F.R. §1.703(a)(3) and (6)

Applicants agree with the USPTO's determination, as shown in the Patent Application Information Retrieval (PAIR) system, that Applicants are entitled to 236 days of patent term adjustment due to USPTO examination delays. The total of 236 days is the sum of a delay of 24 days, (due to the USPTO's failure to respond within four months of Applicants' Reply, i.e., an Office Action was mailed on October 8, 2003, in response to Applicants' May 14, 2003 reply); and 212 days, (due to the USPTO failure to issue a patent not later than four months after payment of the issue fee, i.e., the Issue Fee was paid on June 4, 2004, and the patent issued on May 24, 2005) thus totalling 236 days.

(b) Period of Adjustment Pursuant to 37 C.F.R. 1.704

Applicants respectfully disagree with the USPTO's determination that the patent term adjustment should be reduced by 127 days due to Applicants' delays as indicated in PAIR. For the following reasons, Applicants respectfully submit that the correct patent term adjustment for Applicant delay should be 77 days instead of 127 days.

(b-1) Period of Adjustment Pursuant to 37 C.F.R. §1.704(b)

The USPTO has determined that the patent term adjustment for this application should be reduced by 77 days due to Applicant delay under 37 C.F.R. §1.704(b). Specifically, these delays consisted of a delay of 29 days (due to Applicants' failure to respond within three months to an Office Action, i.e., Applicants filed a response on May 14, 2003, to an Office Action dated January 15, 2003); and a delay of 48 days (due to Applicants' failure to respond within three months to an Office Action, i.e., Applicants filed an Amendment dated February 25, 2004, in response to a Final Office Action dated October 8, 2003), thus totalling 77 days. Applicants believe that this determination of 77 days of Applicant delay is correct.

(b-2) Period of Adjustment Pursuant to 37 C.F.R. §1.704(c)(10)

The USPTO has also determined that the patent term adjustment for this application should be reduced by 50 days due to Applicant delay under 37 C.F.R. §1.704(c)(10). Specifically, Applicants filed corrected drawings on April 5, 2005 (after a Notice of Allowance was mailed on March 26, 2004), and the patent subsequently issued on May 24, 2005, thereby resulting in 50 days of alleged Applicant delay. For the following reasons, Applicants believe the filing of the corrected drawings did not constitute a failure to engage in reasonable efforts to conclude prosecution of the application.

On March 26, 2004, a Notice of Allowance was mailed for this application. The Notice of Allowance indicated that "[t]he drawings filed on February 8, 1999 are accepted by the Examiner."

On June 24, 2004, Applicants timely paid the Issue Fee and Publication Fee for this application.

On March 17, 2005, the USPTO mailed a Notice Regarding Drawings indicating that corrections to the drawings were required. This notice was the first indication given to Applicants that corrected drawings were required and was **contrary** to the previous indication in the Notice of Allowance that the drawings were acceptable. The Notice Regarding Drawings set a two month period for response.

On April 5, 2005, Applicants timely filed corrected drawings that were accepted by the USPTO.

In view of the above facts, Applicants respectfully submit that Applicants' filing of corrected drawings in timely compliance with the Notice Regarding Drawing did not constitute a failure to engage in reasonable efforts to conclude prosecution of the application. Applicants acted in reliance on the indication in the Notice of Allowance that the drawings were acceptable and subsequently, complied in a timely manner to the request to correct the drawings initiated by the USPTO. Thus, Applicants believe they engaged in "reasonable" efforts to conclude prosecution of the application. Accordingly, Applicants respectfully request that the patent term adjustment for this application be corrected to 159 days, i.e., that Applicants not be penalized 50 days for submission of the corrected drawings.

B. 37 C.F.R. §1.705(b)(2)(iii)

This patent is not subject to a terminal disclaimer.

C. 37 C.F.R. §1.705(b)(2)(iv)

Applicants are not aware of any circumstances during the prosecution of this application that constitute a failure to engage in reasonable efforts to conclude processing or examination of this application as set forth in 37 C.F.R. §1.704.

D. Summary

In summary, U.S. Patent No. 6,897,305 B2 is entitled to a period of patent term of adjustment under 35 U.S.C. § 154(b) of 159 days (i.e., 236 days - 77 days). Therefore, Applicants respectfully request that this petition be granted and that this application be forwarded to the Office of Patent Publication for prompt issuance of a Certificate of Correction.

2. Fee Pursuant to 37 C.F.R. §1.18(e)

Pursuant to 37 C.F.R. §1.705(b)(1), a Fee Transmittal is enclosed authorizing the Commissioner to charge the Petition fee of \$200.00 set forth in 37 C.F.R. § 1.18(e) to deposit
